

Education Licence Options

Student Licences

With many Universities from around the world teaching Multi-Criteria Decision Analysis (MCDA) using *Hiview3* and/or *Equity3*, we have developed *Student licences*; heavily discounted and valid for 6 months from purchase. To qualify for a *Student Licence*, the user must be a student in full or part-time education and studying for a recognised qualification at a recognised institute.

Instructor Licences

To support courses at educational establishments that teach MCDA techniques, we have introduced an *Instructor Licence*, which enables a tutor to use *Hiview3* and/or *Equity3* with students in the classroom. Again, this *single-user instructor licence* is heavily discounted, but is valid indefinitely for a 'one-off fee'. This option is usually used in conjunction with the *Student Licence* option (above), as the *Instructor Licence* is not for student nor commercial use.

Educational Site Licences

In a drive to keep costs low and affordable for Education, Catalyze also offers *Education Site Licences*, designed to be available in an Educational establishment's internal network; to be used for educational purposes by multiple users, both teaching professionals and students alike.

There are three options here; an *annual licence (Edu Site A)*, which includes *software support* and maintenance updates; a '*one-off fee licence (Edu Site B)*', which includes *software support* and maintenance updates for the first year only; and our *Hiview3 & Equity3 offer (Edu Site C)*, which includes *software support* and maintenance updates for both products for the first year only.

Software Support

Optional annual *Software Support* is available for £150+VAT per software product. This support fee can be renewed annually. The *Annual Educational Site Licence (Edu Site A)* comes with *Software Support* included in the annual fee. None of the other education licences include *Software Support* after the first year.

About Catalyze

Catalyze Ltd provides a range of consultancy services, education programmes, software products (*Hiview3* & *Equity3*) and software development in the fields of process consulting and decision analysis.

Our association with the London School of Economics and Political Science (LSE) through activities such as research project funding, discovery initiatives, knowledge transfer and practical sponsorships, places Catalyze at the leading-edge of thought leadership within process consulting and the social sciences.

We also offer original and customised software solutions to our growing client list, via our in-house development and integration teams.

The MoD, Royal Navy, DTi, The Environment Agency, NHS and several UK local authorities are among those organisations already benefiting from our socio-economic approach and robust techniques recommended by the Department for Communities and Local Government & HM Treasury.

Option	Licence Type	Time Limitation	Software Support	Cost
Student	Single-user	6-months	None	£50
Instructor	Single-user	None	Optional (£150 p.a.)	£250
Edu Site (A)	Multi-user	Annual Fee	Included	£1000 p.a.
Edu Site (B)	Multi-user	None	Optional (£150 p.a.)	£5000
*Edu Site (C)	Multi-user	None	Optional (£150 p.a.)	£8000

Note: All prices exclude VAT. Prices are per software product, except where indicated (*)

* Edu Site (C) is a special offer price for both *Hiview3* & *Equity3*, purchased at the same time
 Edu Site (B) & Edu Site (C) licences come with the first year's software support included.
